

SmarTimberZ

Resourceful “GREEN” Solutions

LASTS LIKE STONE, LOOKS LIKE WOOD, BUILDS LIKE A DREAM

It's Smartware because:

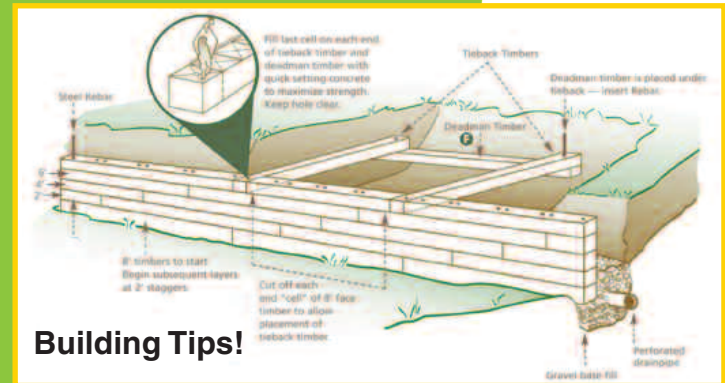

- Lasts like Stone
- No Arsenic Leaching
- Lightweight
- Locking Ribs on Back
- One Person Build
- No rot, insect or termite damage
- No drilling required
- Cuts easily with Hand tools
- Closed ends after sawing
- No splinters
- Uses Eco-blend recycled materials
- “Bronze Blend” Color (between dark chocolate and hot fudge)
- Costs less to install than stone or wood
- Safer for children and garden beds
- Only 40lbs. per timber
- Keeps walls solid
- Saves labor costs
- Outlasts 3 wood walls
- Easy installation
- No special tools required
- Maintains solid appearance
- Great for sand boxes
- Reduces landfills
- Gives subtle variations like wood

Build once and done

Carry two at once with our exclusive handles

a copyrighted blend of recycled materials engineered for superior performance

Before installation, timber dimensions may change due to uneven surface heating. Keep loose timber out of sun or sprinkle with water to even surface temperatures. Once installed with 1/2" rebar, timberz remain true & stable. Consult an engineer with your plan, follow local codes & obtain permits.
